To Whom It May Concern:

It is our pleasure to provide this letter of recommendation for **Danielle Ussery**, who worked in our Creative Team as a Graphic Designer. She was a key member of the production graphic design team, consistently delivering high-quality product artwork.

Danielle is a highly organized and methodical designer:

- Meticulous in designing layouts and dealing with color, eager to go through multiple rounds of proofs in order to achieve great results.
- Familiarity with different printing processes, product types, and packaging design. Particularly, Danielle was important to our playmat (sublimation) design process.
- Experience communicating well with both local and overseas vendors (China)
- Knowledge of creating and sending vendor-friendly print files, and maintenance of a well organized file structure.
- Expert knowledge in Adobe Creative Suite

Beyond her technical knowledge, Danielle is a dedicated pro. She has the ability to juggle multiple design projects at the same time while meeting tight deadlines, without compromising on quality. Her expertise on design and attention to detail resulted in products that have performed amazingly well in the market.

We wholeheartedly recommend Danielle Ussery to any future employer.
